### Typographic information

Submissions should not exceed 30000 types (bibliography included).

Abstract should not exceed 15 lines. English version is required; if the language used in the paper is different from English, author/s can add another abstract in the preferred language.

The text should be single spaced and should be divided into numbered paragraphs (arabic numerals). Each page should contain about 35 lines (ca. 2000 types per page, spaces included).

Font: Palatino Linotype, pt 10. For Greek characters please use the font family Greek. Other font types should be used, if needed for special purposes, but they must be attached separately to the email. We recommend the use of SILDoulosIPA for phonetic symbols.

Short quotations should be incorporated into the text and enclosed in double quotation marks.

Quotations exceeding 3 lines should be typed in a separate indented paragraph (pt 9), avoiding quotation marks. Left and right indentation is set to 1 cm.

Footnotes (pt 8) should precede periods and commas and should be numbered consecutively throughout the manuscript with superscript Arabic numerals.

Double quotation marks are preferred (angle brackets should be avoided).

Capitals, bold and underlined characters should be avoided (they should be used only if necessary for special purposes).

Bibliographical references in-text should follow the Author-date system, e.g.: (Verdi, 2000: 32-39).

Figures and tables should be centred (max. 10 cm in width), captions should follow each figure/table.

Hyperlinks must be all black and should not be underlined.

Page numbers will be added later, avoid footers or headers.

### Bibliographical references
